

Monetary Authority of Macao – Press Release

Monetary and Financial Statistics – December 2008

According to statistics released today by the Monetary Authority of Macao, on a monthly basis, money supply M2 increased in December. Deposits with banks continued to grow whereas domestic credit to the private sector dropped slightly. As a result, the loan-to-deposit ratio declined from a month ago.

Money supply

Due to the increases of currency in circulation and demand deposits, M1 rose 15.8% month-to-month. Meanwhile, quasi-monetary liabilities grew slightly by 0.8%. The sum of these two items, i.e. M2, thus increased 2.6% to MOP189.8 billion. On an annual basis, M1 and M2 rose 9.4% and 2.3% respectively. In terms of currency structure, the share of Pataca (MOP) in M2 stood at 28.5%, down 0.2 percentage points over a month ago or up 1.0 percentage point over a year earlier respectively. Concurrently, the share of Hong Kong Dollar (HKD) in M2 was 52.3%, down 0.4 percentage points month-to-month or 2.4 percentage points year-on-year.

Deposits

Resident deposits increased by 2.6% month-to-month to MOP185.4 billion. Of which, MOP deposits, HKD deposits and other foreign currency deposits rose at respective rates of 1.9%, 1.8% and 5.8%. Meanwhile, non-resident deposits totalled MOP77.9 billion, equivalent to an increase of 9.3%. As a result, total deposits, i.e. the sum of resident deposits and nonresident deposits, grew 4.5%. The shares of MOP and HKD in total deposits were 20.0% and 46.4% respectively. Public sector deposits with the Monetary Authority and the banking sector continued their uptrend. They increased by 1.5% over November 2008 to MOP93.3 billion.

Credit

Domestic credit to the private sector dropped slightly by 0.2% month-to-month to MOP91.8 billion. Among which, MOP18.6 billion was MOP-denominated and MOP66.2 billion was denominated in HKD, representing 20.2% and 72.1% of the total respectively. Analysed by the sectoral distribution, credit extended to sectors such as “wholesale and retail” and “individuals for house purchases” dropped quarter-to-quarter at respective rates of 15.7% and 3.5%, whereas those of “transport, warehouse and communications”, “restaurants, hotels and related activities” and “construction and public works” increased 33.2%, 3.1% and 2.9% respectively.

External credit also declined by 0.8% to MOP59.3 billion; of which, credit denominated in MOP and HKD accounted for 1.8% and 54.0% respectively of the total, at values of MOP1.0 billion and MOP32.0 billion.

Attributed to the gain in resident deposits and contraction in domestic credit to the private sector, the loan-to-deposit ratio for the resident sector at end-December 2008 dropped by 1.5 percentage points month-to-month to 46.4% while the ratio for both residents and non-residents stood at 54.7%, down 2.8 percentage points.
